Location: Chouf, Lebanon

Objective

Motivated and detail-oriented cybersecurity graduate specializing in web application penetration testing, seeking a remote junior role to apply practical skills and contribute to securing modern applications.

Skills

Tools & Platforms:	Burp Suite, Metasploit, Kali Linux, Windows
Programming & Scripting:	Python, Bash, JavaScript, C#
Web & Frontend:	HTML, CSS, React
Areas of Expertise:	Networking, OWASP Top 10, Vulnerability Assessment, Web App Penetration Te

Education

Bachelor's Degree in Computer Science — Notre Dame University (NDU), Louaize

Relevant Training & Certificates

Semicolon Academy — Ethical Hacking Foundation Course (Certificate awarded)

PortSwigger Labs — Web security practical labs

TryHackMe — Hands-on labs and challenges

Semicolon Academy — Course challenges and practical exercises

Practical Labs & Projects

• Web application penetration testing labs (PortSwigger) — worked on identifying and exploiting OWASP Top 10 vulnerabilities and producing remediation recommendations.

• TryHackMe hands-on challenges — applied reconnaissance, scanning, exploitation and post-exploitation techniques in practice labs.

• Semicolon Academy challenge projects — completed practical exercises in web app security and vulnerability assessment.

Languages
Arabic — Native
English — Fluent
